

Welcome to the 24 GOOD DEEDS online application manager!

24 GOOD DEEDS collects donations and helps raise awareness for social and environment projects. The concept is simple: behind each of the 24 Advent Calendar doors there is one GOOD DEED which donors can help make a reality with their one-time donation of \$24. Behind each door, participating organizations provide a description of how and where the donations are applied. Any Canadian charity that has a mandate to implement social and environmental projects and initiatives and that can provide open and transparent financial reporting is eligible to participate in the calendar.

We are particularly interested in applications that deal with health, education, infrastructure, nature and the environment, as well as nutrition and care. We estimate that each project that will be part of the next edition of the calendar will receive donations up to \$5,000. The exact donation amount depends on the donations received during the months it is offered.

The selection process consists of three phases:

1. Submission of the initial project outline
2. Submission of a detailed project outline
3. Telephone interview

The application process for the calendar generally begins in the first quarter of each year. In our NGO newsletter you will learn exactly when the next round of application will begin. Successful candidates will be invited to participate in the second phase of the application process around the beginning of April. Successful applications will have an emphasis on transparency, sustainability, effectiveness, and plausibility.
